ORAL DEPOSITION OF

PATRICK KARAM

JULY 16, 2008

ORAL DEPOSITION of PATRICK KARAM, produced as a witness
at the instance of the Defendants, and duly sworn, was taken
in the above-styled and numbered cause on the 16th day of
July, 2008, from 11:00 a.m. to 1:14 p.m., before Judith A.
Stewart, CSR, in and for the State of Texas, reported by
machine shorthand, at the offices of EDWARD L. PINA &
ASSOCIATES, P.C., 8118 Datapoint Drive, San Antonio, Texas
pursuant to the Federal Rules of Civil Procedure and the
provisions stated on the record or attached hereto.

1 A. It requires boundaries --

2 MR. PINA: Objection. Again, calls for a
3 legal conclusion from a lay witness.

4 Q. (BY MR. BURCH) You can answer, sir.

5 A. It requires boundaries on pay standards for total
6 hours worked.

7 Q. What, if anything, does the Fair Labor Standards
8 Act require in your understanding, sir?

9 MR. PINA: Same objection. It calls for a
10 legal conclusion from a lay witness.

11 A. That would be it.

12 Q. (BY MR. BURCH) Okay. What are the boundaries
13 on pay standards for total hours worked?

14 A. 40. And then after 40, it changes.

15 Q. What does it change to?

16 A. Per week. It changes per week after 40 hours.

17 Q. Okay. We're missing each other. How does it
18 change after 40 hours?

19 A. Then the pay rate has to change to time and a half.

20 Q. Okay. And how long have you known that after 40
21 hours employees are supposed to be paid time and a half?

22 A. At least four years.

23 Q. And you've known for at least four years that
24 employees must receive a minimum amount for each hour
25 worked?

1 rate or did they work for tips? What did you do?

2 A. I paid them \$2.13 an hour plus tips.

3 Q. So it's safe to say at least as far back as 2000
4 you knew you had to pay at least \$2.13 an hour to a server
5 who was working, right?

6 A. Yes.

7 Q. Now, \$2.13 is less than what you call the general
8 minimum wage; is that right?

9 A. Yes. Yes.

10 Q. And I guess that you rely on gratuities to make up
11 the difference between the \$2.13 and the general minimum
12 wage at your bars?

13 A. Yes. Yes.

14 Q. Are there -- are there any other requirements
15 beside paying \$2.13 an hour that allow -- that are required
16 to allow your bars to pay \$2.13 an hour instead of the
17 general minimum wage?

18 A. Would you rephrase that question, please?

19 Q. Sure. There's a general minimum wage that is
20 higher than \$2.13 an hour, right?

21 A. Yes.

22 Q. You believe that you can pay \$2.13 an hour and rely
23 on tips to make up the difference between \$2.13 and the
24 general minimum wage, true? You believe that?

25 MR. PINA: Objection.

1 requirements that you're aware of other than you've got to
2 pay them at least \$2.13 and they have to make at least the
3 general minimum wage?

4 A. No.

5 Q. Do you follow the same pay policies with respect to
6 servers at all of the bars, Dixie's, Babcock, Chicago,
7 New York Bar and Boston Pub?

8 A. Yes.

9 Q. And are those -- were those policies established by
10 you?

11 A. Yes.

12 Q. Are you capable of enforcing those policies at each
13 of these bars?

14 A. What does that mean?

15 Q. At my firm, right, my firm is Bruckner Burch, if I
16 say, "This is the policy," and somebody doesn't follow it, I
17 can do something about it. I can write them up. I can go
18 talk to them. I can discipline them. I can suspend them.
19 I can fire them if I really feel mean. I can enforce the
20 policies at Bruckner Burch. Can you enforce the policies at
21 your bars?

22 A. Yes.

23 Q. That seems pretty easy to me, right, you're
24 president of all these bars, true?

25 A. Yes.

1 and I would approve or disapprove it.

2 Q. Did she ever fire anybody?

3 A. No.

4 Q. Who is Manny?

5 A. Manny was the manager, a manager, that worked for
6 Broadway Bar.

7 Q. Okay. Did Manny also manage any of the other bars?

8 A. Manny was a person that worked for me at Broadway
9 Bar that I tried to train to integrate to run all of the --
10 my entire operation, to place a manager in all of the bars,
11 and it didn't work out.

12 Q. What is Manny's last name? Hispanic gentleman?

13 A. I don't remember.

14 Q. Okay. Manny's no longer with you; is that right?

15 A. No.

16 Q. No, he is still with you?

17 A. No, he's not with me.

18 Q. Okay. Did Manny have the authority to hire and
19 fire?

20 A. Only at Broadway Bar.

21 Q. Has there ever been a position at your bars called
22 happy hour manager?

23 A. No.

24 Q. How about nighttime manager?

25 A. No.

1 A. Around \$9 an hour.

2 Q. Do any of the doormen get paid less than the
3 general minimum wage?

4 A. No.

5 Q. How about the barbacks, how are they paid?

6 A. \$2.13 an hour.

7 Q. Okay.

8 MR. PINA: Plus tips?

9 A. Plus tips.

10 Q. (BY MR. BURCH) The barbacks get \$2.13 an hour
11 plus tips?

12 A. Plus tips.

13 Q. Right. What is Bar Staff Management, Inc.?

14 A. It's a payroll company and the management company
15 for the bars.

16 Q. All the bars?

17 A. Yes.

18 Q. Do all the paychecks for all the people at all the
19 bars come from Bar Staff Management, Inc.?

20 A. Yes.

21 Q. Who owns Bar Staff Management, Inc.?

22 A. I do.

23 Q. Does Bar Staff Management, Inc. provide payroll
24 services to any bars that you don't own?

25 A. No.

1 cash register shortages or sales that are not entered in --
2 INT -- the computer at every bar I am assigned to work."

3 Do you see that?

4 A. Yes.

5 Q. Is that true?

6 A. This is an extension of the same --

7 Q. I hear you.

8 A. -- disposition.

9 Q. Tell me if that statement is true or false.

10 A. That statement is -- that statement is true.

11 Q. And I notice it says in there: "...entered in the
12 computer at every bar I am assigned to work." So I guess
13 Johnny Bernal was subject to being assigned to work at any
14 bar; is that right?

15 A. Yes.

16 Q. If you say, Today you're over at Chicago Bar,
17 that's where he goes, right?

18 A. Yes.

19 Q. If there is a cash register shortage while an
20 employee is working, that employee can have either their pay
21 or their tips docked for that shortage at your bars; isn't
22 that true?

23 A. Yes.

24 Q. Tell me how the tip pool works at your bars.

25 MR. LOPEZ: Objection, form.

1 A. You -- what happens at the end of the night?

2 Q. (BY MR. BURCH) I guess. I don't know when
3 they do the tip pooling.

4 A. At the end of the night, all the credit card
5 receipts are tabulated.

6 Q. Okay.

7 A. For tips.

8 Q. Okay.

9 A. All the cash is pooled together and added up and
10 then distributed equally amongst the players.

11 Q. Okay. So that's the only thing that happens, you
12 total here's how much we have in credit card receipts,
13 here's how much we have in cash, let's split it up amongst
14 the people that are working?

15 A. Right, and then the distribution occurs.

16 Q. Huh?

17 A. And then the distribution occurs.

18 Q. Okay. So there's no, for example, 4 percent charge
19 for this?

20 A. You have to deduct for the -- whatever the credit
21 card expense is.

22 Q. Okay. And that's what I'm trying to figure out, is
23 tell me --

24 A. Okay. All right.

25 Q. -- tell me there is some amount that is left on

1 credit cards and in cash as tips; is that right?

2 A. Yes. That's correct.

3 Q. Okay. And then that's what we'll call the pool, I
4 guess.

5 A. Okay. Okay. The total tip amount.

6 Q. The total tip amount.

7 A. The total tip amount. Okay.

8 Q. From the total tip amount, what happens to that
9 money, everything that's deducted from it and every person
10 that it goes to?

11 A. There's 5 percent taken out -- there's a 5 percent
12 fee taken out, general fee taken out, from the tip -- the
13 total tip pool.

14 Q. Okay.

15 A. And then there's a fee taken out for whatever the
16 credit cards were, the credit card expense.

17 Q. And how is that amount calculated?

18 A. It's 4 percent, which is what -- more or less what
19 credit card -- what the credit card expense is.

20 Q. Okay. 4 percent of what?

21 A. Of the total tips.

22 Q. Of all the tips including --

23 A. No, no, just the credit card tips.

24 Q. Okay.

25 A. 4 percent of the credit card tips, whatever they

1 are.

2 Q. 4 percent of the credit card tips. 5 percent comes
3 out of the general --

4 A. Correct.

5 Q. -- the total tip amount?

6 A. That's correct. The total amount of tips.

7 Q. Right. So if there were \$50 in credit card tips,
8 \$50 in cash tips, it would be 5 percent of \$100?

9 A. That's correct. It would be 5 percent of \$98.

10 Q. Why 98?

11 A. Because they would lose 4 percent of the 50 bucks.

12 Q. Oh, okay. So the 4 percent comes off the top, so
13 to speak, and then the 5 --

14 A. Yes. It's just a -- it's a courtesy that we
15 provide to the employees.

16 Q. Okay. So let's stick with that hypothetical,
17 right, and let's say it's a slow night. There's 50 bucks in
18 credit card tips, there's \$50 in cash tips. We have 100
19 bucks. The first thing we do is for the credit card tips,
20 first thing is we deduct 4 percent for the credit card
21 charges; is that right?

22 A. Yes.

23 Q. That leaves us with \$48.

24 A. Yes.

25 Q. Right? We take that \$48 and we add it to the \$50

1 in cash that we have.

2 A. Yes.

3 Q. Okay. That leaves us with \$98.

4 A. Yes.

5 Q. We then take 5 percent of that for the general fee,
6 right?

7 A. No. We take 5 percent of the total sales for the
8 general fee.

9 Q. Okay. So does the 5 percent include the amount of
10 credit card tip or just the amount of credit card liquor
11 ring? Do you understand what I'm saying?

12 A. Neither. Neither.

13 Q. Neither. Okay.

14 A. The 5 percent, it reflects total sales.

15 Q. Okay.

16 A. For the night.

17 Q. And I hear you, but I guess does total sales
18 include the amount that was left as a tip on a credit card?

19 A. Oh, no.

20 Q. Okay.

21 A. No.

22 Q. Okay. So if there was, you know, a \$40 tab, a \$10
23 tip --

24 A. Only the \$40 counts.

25 Q. Would count towards the sales. Okay.

1 So sticking with our earlier example, right,
2 we've now got 98 bucks left in tips. We would figure out
3 what the total sales were for that night, and 5 percent of
4 that amount would be deducted from the 98; is that right?

5 A. Yes.

6 Q. What is the -- what is the general fee? What is
7 that?

8 A. It's a tip pool that is distributed amongst lead
9 bartenders and staff.

10 Q. Who is the staff?

11 A. All employees.

12 Q. All employees. Barbacks, doormen, servers?

13 A. No.

14 Q. Okay. Who?

15 A. Just servers. Just servers.

16 Q. Well, the servers are already about to divvy up
17 what's left, right? I mean, what -- after we take out this
18 5 percent, right, and let's call it 8 bucks, right, we're
19 left with \$90 in tip pool money. That's going to get
20 divided up amongst the servers.

21 A. Correct.

22 Q. Okay. So this 5 percent can't be for the servers,
23 can it?

24 A. It's -- yes. It's redistributed to the servers at
25 the end of a certain period of time.

1 Q. So you hold onto it?

2 A. Yes.

3 Q. How long do you hold onto it for?

4 A. It depends, but sometimes a week, sometimes two
5 weeks, sometimes 30 days.

6 Q. Why?

7 A. Because in the bar industry --

8 Q. Uh-huh.

9 A. -- the bar industry is much like a movie.

10 Q. Uh-huh.

11 A. And so staff often gets credited for extra kinds of
12 work that they do.

13 Q. Uh-huh.

14 A. And so that residual --

15 Q. How does that make it like a movie?

16 A. Because it's all integrated together.

17 Q. Uh-huh.

18 A. Everything's integrated together in the business.

19 Q. Uh-huh.

20 A. Everybody depends on everybody to execute well in
21 the bar industry.

22 Q. Okay. So you withhold this 5 percent --

23 A. Yes.

24 Q. -- right? And it is --

25 A. Redistributed after a period of time to lead

1 A. I do.

2 Q. And how do you account for that amount? How do you
3 keep track of how much you got and how much you paid out and
4 who it went to?

5 A. I don't keep account. I just distribute it.

6 Q. So 5 percent of the tip pool, total tip pool money,
7 after credit card comes to you, right?

8 A. Yes.

9 Q. Is that money in cash?

10 A. Yes.

11 Q. Is there an envelope or anything that comes in it
12 that says here's how much I'm giving to Patrick today?

13 A. No.

14 Q. And you hold onto it until you think it's
15 appropriate to redistribute it?

16 A. That is correct.

17 Q. But when you hand it back out, you don't say, okay,
18 here's 50 bucks for you. Here's 100 bucks for Diego. Rex,
19 you suck, so there's five bucks for you. You don't do that
20 right? You don't keep a record?

21 A. Oh, right. No, I don't.

22 Q. You do hand out the money?

23 A. I do hand out the money.

24 Q. Right, but you don't keep track of it?

25 A. No, I don't keep track of it.

1 Q. If we wanted to go back and test and make sure that
2 5 percent that's held actually gets distribute and who it
3 got distributed to, is there any way we could do that?

4 A. No.

5 Q. Are you required by the wage and hour laws under
6 your understanding to keep any particular kinds of payroll
7 records?

8 A. Yes.

9 MR. PINA: Objection.

10 Q. (BY MR. BURCH) What payroll records is it
11 your understanding that you're required to keep?

12 A. I'm required to keep the total hours logged in by
13 all servers. I'm required to keep bank records of all
14 checks issued. I'm required to keep all tax reports that
15 are required to be filled out.

16 Q. When you do withholding on an employee's pay, are
17 you only supposed to withhold on the \$2.13 that you pay them
18 or the hourly wage that you pay them, or are you supposed to
19 withhold based on the \$2.13 that they get and the total
20 amount of tips that they receive?

21 A. Okay. All right. If I'm withholding for the
22 employer's part --

23 Q. Uh-huh.

24 A. -- I have to withhold 100 percent of the employer's
25 part of all the tip declarations as well as all the whatever

1 Q. Did Shelby ever make schedules?

2 A. I'm sure she did.

3 Q. What was Shelby's position?

4 A. She was lead bartender as well.

5 Q. What bar? Bobby would like to know what bar.

6 A. Chicago Bar.

7 Q. Chicago Bar. At the Babcock Bar, who was the lead
8 bartender for most of 2007?

9 A. Paul Neafie, probably.

10 Q. And how about Dixie's?

11 A. Dixie's varied between several people.

12 Q. Who are they?

13 A. I don't know.

14 Q. Who's one of them?

15 A. Melissa.

16 Q. Do you know Melissa's last name?

17 A. I don't.

18 Q. Do you know any of the other ones?

19 A. I don't.

20 Q. How do you explain to employees who are hiring on
21 with your bars how they'll be paid?

22 A. I just assume that the -- I don't know. I don't.

23 Q. Okay. You just figure most of these people have
24 had some experience in the bar industry before, they know
25 what's up?

1 MR. PINA: Can we have a time reference for
2 that?

3 Q. (BY MR. BURCH) Over the past four years.

4 A. My answer stays the same. It just -- I just assume
5 they know, you know.

6 Q. Right. You told me that most of the people that
7 you hire have had some experience in the restaurant
8 industry.

9 A. Right.

10 Q. Right?

11 A. Yes.

12 Q. So you figure they probably know --

13 A. Yes.

14 Q. -- how it works, right?

15 Does anybody else at your bars attempt to
16 inform people how they'll be paid?

17 A. I don't know.

18 Q. Is there anybody else that has the responsibility
19 of informing employees how they'll be paid at your bars?

20 A. No. No.

21 Q. So Mr. Neafie was the lead bartender at Chicago
22 Bar, true?

23 A. No.

24 Q. No? Where?

25 A. At Babcock Bar.

1 envelopes?

2 A. No.

3 Q. Are they in envelopes? Is the money in envelopes?

4 A. Okay. I don't know.

5 Q. When you get it, how is it?

6 A. I get it in a bank bag usually.

7 Q. Separated by envelopes or one big bag?

8 A. No, just one bank bag.

9 Q. Okay. That's all the bars lumped together?

10 A. Yes.

11 Q. Who decides how that money will be distributed?

12 A. I do.

13 Q. And how do you make that determination?

14 MR. LOPEZ: Objection.

15 A. Based on my perception of production.

16 Q. (BY MR. BURCH) Do you count the money
17 distributed from that 5 percent when you're
18 calculating the taxes that are owned on an employee?

19 A. No.

20 Q. Do you consult with anybody prior to --

21 A. No.

22 Q. -- deciding how to divvy up that 5 percent?

23 A. No.

24 Q. Your bars, you'll decide?

25 A. Yes.
